Some Baseball Announcements.

The Laugh on a Harlem Sporting The Roceter's Crowing Ended the . " Man-News of the Clubs.

There seems to be a trifle too much myster about the movements of the baseball people. It is stated in a morning paper that "one Association club has enough of the fight," and just as everybody is on the tiptoe of anxiety to find which club is thus early discouraged the article goes on to state that "the name of this club, for various reasons, cannot be announced now, bet probably will later on. "Why is the name of this club withheld:

of course it cannot be that the writer who makes the statement is afraid of a flat-footed denial and takes this mode of keeping the Association guessing as to which one of its clube has 'telegraphed to a National League magnate that its backers are sorry for what has happened; that they are weak financially and none of the players want to go with them.'
As it appears now, the assertion is either a fine plece of bluming or cise its writer is guilty of omitting the only piece of news that could possibly have made his half column interest-

## ANNOUNCEMENT.

We beg to state that we have just completed the largest Blacuit and Cracker Works in America, on West street, from Bethune to West 12th, and are now ready to supply the trade with Cracker and Biscuits baked in New York City.

We would indeed be ungrateful if we failed in this approuncement to return thanks for the

cordial reception given to us by the dealers and consumers of New York, Brooklyn, Jersey City and vicinity. Our welcome here has been most hearty, and the satisfaction our product has given. although brought here at great disadvantage from the West, has been most pleasing to us and genuine surprise to every one, many dealers having remarked that nearly all varieties of our goods were simply the finest they had ever seen.

If you have not yet given them a trial we would be glad to have you do so, and promise unsping efforts to please in every way, giving you a line of goods which have probably never before be equalled, in their entirety, in this country, and put up under labels that have been pronounced all who have seen them as more beautiful than any ever before used in America for general m

'Tis said it's well not to be tied hand and foot to any one concern, and we are convinced New York merchants appreciate this, and now that we are part and parcel of this community, in interest, in substantial large investment and in citizenship, we ask a fair trial and promise complete satisfac-Our goods shall be nice. fully equal to the very best, and (if we may be pardoned) better in sor

instances than any ever before introduced into the New York market.

In a word, we purpose being narrow-gauged in nothing but liberal and progressive in all things, and with high-class goods, artistic and beautiful packages and fair treatment to all hope to fully

merit and receive your kind favors.

In conclusion, permit us to extend you a hearty invitation to visit our extensive works, where we promise a cordial reception and a sight which will, no doubt, be of very great interest to you.
